

Python – Homework Practice Day 1

Professor:

Dr. Joanna Bieri

joanna_bieri@redlands.edu

Directions: Create python code that prints “Hello World”

What should I do between this class and Day 2 ?

- Make sure you have python running on your computer. Come to lab if you need help
- Submit your working “HelloWorld” code as Practice 1. You can submit a shared link to your google colab in the comments OR submit a .ipynb file as an upload on canvas
- Watch the videos for the next class
- Try all the problems from Practice 2
- Submit your Practice 2 problems by the beginning of class. You can submit a shared link to your google colab in the comments OR submit a .ipynb file as an upload on canvas.
- Come to class with questions.
